

JANUARY NEWSLETTER

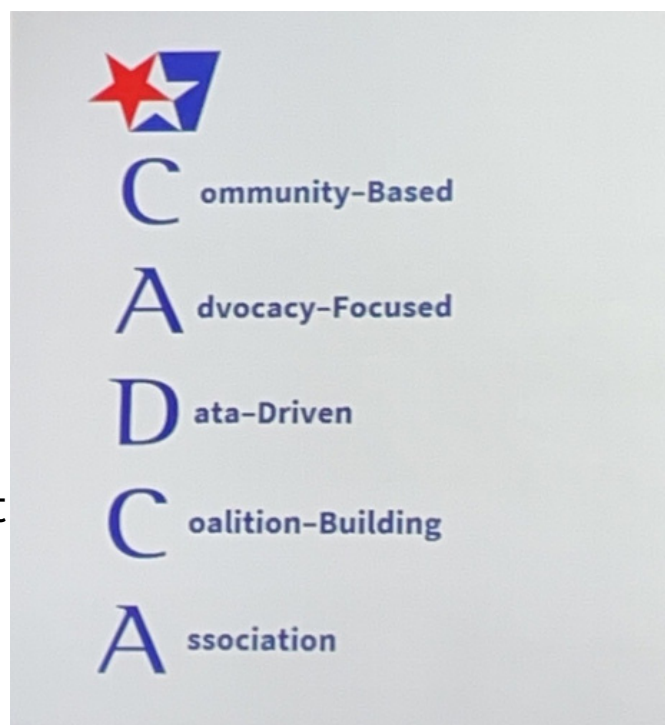

Allegheny Highlands Healthy Youth Coalition

Coalition Updates

Newsletter Written By: Tiffany Bowser, AHHC Chair

January is often a slow month in the world of prevention and while there may not be many events, the prevention work continues through education, awareness, and regional partnerships. CADCA is a national conference that meets twice a year and in January, Allegheny Highlands Community Services Director, Ingrid Barber, and Prevention Services Supervisor and AHHC Coalition Chair, Tiffany Bowser were able to attend the annual CADCA Leadership Forum. Previously CADCA stood for, Community Anti-Drug Coalitions of America; however this year they have now adopted a change in order to full encompass what their message stands for; Community-Based, Advocacy-Focused, Data-Driven, Coalition Building, Association. This event had over 4000 adult participants and 600 youth participants.

TOGETHER TOWARD TOMORROW

How does your coalition implement?
